

American Welding Society

HOUSTON SECTION

2012 Billy Herrell Instructor's Institute/ Welder Certification Day

What? The AWS Houston Section will hold the 2012 instructor's training on Welder Qualification/Welder Certification. The workshop will be open to any teacher that instructs others in welding. The training will consist of a comprehensive overview on how the welder qualification/certification process is used within the welding industry and how the process works. Educators will also have the opportunity to take a welder qualification test using the SMAW or FCAW processes. This event will help prepare instructors for the student welder certification day that will be held in May. Educators will need to bring their welding safety equipment in order to participate.

When & Where? The Instructors Institute/ Welder Certification Day will be on February 24th, 2012 at Maverick Testing Laboratories. 10001 Porter Rd. LaPorte, TX 77571. The training will start at 8:30 am and end at 4:00 pm.

2012 Billy Herrell Student Welder Certification Day

What? This event is for welding students that would like to take a welder qualification test on the SMAW or FCAW-G processes. Students will follow an AWS D1.1 Welding Procedure Specification to complete the welding test. If the student passes the welding test, a Welder Performance Qualification Record (Certification) will be written and stamped by a Certified Welding Inspector.

When and Where? The Student Welder Certification Day will be on May 4, 2012 at San Jacinto College. 8060 Spencer Hwy. Pasadena, TX 77505. The testing will start at 8:00 am and end at 4:00PM. Students will need to bring their welding safety equipment in order to participate.

How? There are no fees for these events. Please contact Dan Jones via email to register for these events.
